

CO-CURRICULAR ORGANIZATIONS & CLUBS

2021 – 2022

May 2022

Our co-curricular clubs and organizations exist to provide all at NCHS opportunities to pursue their interests, express their creativity and learn about or try something new, as well as a way for students and staff to find others within the high school community who share those interests and are eager to work collaboratively while having fun. *This listing will be updated throughout the year as new clubs are begun and interest in established clubs wanes.*

When an activity or club has regularly scheduled meetings, that time and location (or via Zoom) are provided. If there is no meeting time provided, then you should listen for announcements, check the TV monitors and watch for posters around the building. Adviser and student leader names are provided for e-mail communication and can be contacted through first.last@ncps-k12.org, unless noted otherwise.

MOST OF OUR ORGANIZATIONS HAVE PRODUCED AN INTRODUCTORY VIDEO (LINKED WITH THE DESCRIPTION). YOU CAN CLICK ON THE NAME OF THE GROUP TO VIEW ITS VIDEO

There is no fee for participation in any co-curricular organization, club or activity at New Canaan High School. However, to offset costs associated with some of these groups or activities, members or participants may be solicited for contributions and/or asked to participate in fundraising. If doing so in whole or in part proves burdensome to any NCHS student and his/her family, the school will cover such costs so that no student should be excluded from participating. Please contact the club Adviser, your child's counselor or grade-level administrator if this is an issue and arrangements will be made discreetly.

If you have any questions or would like to start a new club, contact Mr. Rothman in the Main Office.

Lastly, to insure everyone's safe participation, we expect that the student and/or parent take seriously the responsibility to inform the club Adviser of any medical information pertinent in an emergency.

** Since we cannot offer our usual fair this year (with crowds around tables in the cafeteria), we wanted to still provide personal introductions and descriptions of our wide variety of student-lead co-curricular offerings.*

This list is designed to provide you with ideas and contact information for any of the activities listed below and will be **updated regularly** as new groups form. For your convenience, it is organized into the following categories:

The NCHS Debate team gives students the opportunity to explore current, controversial issues in politics and society, while competing in extemporaneous competitions against other high schools in the Connecticut Debate Association. Parliamentary style tournaments may be added throughout the year. Whether they're looking to overcome a fear of public speaking or perfect their rhetorical technique, members will gain valuable speaking, listening, and analytical skills in a supportive environment. For more information, please visit the Connecticut Debate Association website (ctdebate.org) or follow us on Instagram [@nchsdebateam](https://www.instagram.com/nchsdebateam).

Mrs. Amy Rothschild – Advisor

In preparation for conferences, the Powers of Congress will be reviewed, and students will simulate the writing of a bill. Amelie L'Henaff, Aleena Nasruddin & Savannah Phillips – Co-Captains

Mrs. Zeeshaan Arastu, Mrs. Marianne Cohen, Mrs. Allison Freeman & Mr. Paul Phillips – Advisors

The NCHS Model United Nations Club has an active and growing membership, which meets each Monday after school to prepare for competitions at Ivy League colleges and other venues, and plans activities involving the wider high school, local and global communities. The NCHS Model UN Club will only succeed if members both enjoy themselves and succeed in achieving their personal and team goals. As such, the club positions itself within the school community as an academic "sport," with the following goals: promoting a world view that respects divergent national priorities, developing skills in research, critical thinking, persuasion, and collaboration, providing a platform for club members to compete at the highest national and international level, giving back to the school, local and international community and, ultimately, preparing members for leadership positions at college and beyond.

In October, some of our team members will begin practicing representing NCHS at the National Science Bowl. Practices will be held after regular club meetings, so interest/participation in the competing team is not a requirement to be in the club.

Mr. Jim Zambarano – Advisor*

The Technology Student Association (TSA) fosters personal growth, leadership, and opportunities in technology, innovation, design, and engineering. We are currently in a competition to rack up as many miles as we can by walking together on Tuesdays from 2:10-2:50. Once possible, we will revisit team sports. If you want to have fun, meet new people, and have a positive impact with our special needs community this club is for you!!! If you are interested in participating in the fall, winter, or both, please see either Mrs. Schulz or Ms. Palmer.

Some of these activities can be completed in your own time and some as a group. We intend to work with Person to Person (a local service) for events, set up "boo" baskets for senior centers around holidays, help with the Norwalk library, and add more as we gain a footing and Covid-19 declines. Our activities will typically occur on the weekends, but each is optional and has no routine date. However, we would have a set monthly zoom meeting on weeknights to prepare and discuss the month's activities so members can have information ahead of time.
