

NEW CANAAN HIGH SCHOOL
CO-CURRICULAR ORGANIZATIONS & CLUBS
AND VOLUNTEER OPPORTUNITIES
2018 – 2019
Club Fair Edition

Our co-curricular clubs and organizations exist to provide all at NCHS opportunities to pursue their interests, express their creativity and learn about or try something new, as well as a way for students and staff to find others within the high school community who share those interests and are eager to work collaboratively while having fun. When an activity or club has regularly scheduled meetings, that time (and location) are provided. If there is no meeting time provided, then you should listen for announcements, check the TV monitors and watch for posters around the building. If you have any questions or would like to start a new club, contact Mr. Rothman in the Main Office.

Adviser and student leader names are provided for e-mail communication and can be contacted through first.last@ncps-k12.org, unless noted otherwise.

Lastly, to insure everyone's safe participation, we expect that the student and/or parent take seriously the responsibility to inform the club Adviser of any medical information pertinent in an emergency.

There is no fee for participation in any co-curricular organization, club or activity at New Canaan High School. However, to offset costs associated with some of these groups or activities, members or participants may be solicited for contributions and/or asked to participate in fundraising. If doing so in whole or in part proves burdensome to any NCHS student and his/her family, the school will cover such costs so that no student should be excluded from participating. Please contact the club Adviser, your child's counselor or grade-level administrator if this is an issue and arrangements will be made discreetly.

It is too often that people who love music remain ignorant to the thousands of great artists and albums that go unnoticed. Music is a passion that many people in the school share. Every week, a new album will be presented. Club members would listen to the album and show up to the next meeting to engage in a deep and thoughtful about their opinions on the album. The conversations would go beyond "I liked/didn't like it" and go more in depth into the music and album as a whole: How it made us feel, how it compares to the artist's other work, what we liked, what we disliked, the pacing of it, etc. We would listen and discuss albums from all different genres/artists, old and new, and anyone can participate. The goal in the end is to expose listeners to different kinds of music.

Mr. Chris Tournas - Adviser

Stock Club is an after-school opportunity for students to get a glimpse at what the world of investing has to offer. Each group will consist of a few students (depending on the number of club members), and will be given \$100,000 of virtual money to make investments in the virtual market. Gathering on a weekly basis, the club will gather to discuss recent news and possible stock futures. If the number of members permits, the club will be divided into separate sectors to focus on different areas of the market (clean energy, insurance, etc.) In addition to this component, we will be introducing a new facet that was not present in the previous stock club. With the help of Mr. Tournas, we are considering adding the mathematical component to what it means to invest. With the help of possible volunteers with first-hand investing experience on Wall Street, we hope to educate club members as well as create a competitive environment.

We meet on Tuesdays in the auxiliary gym, from 2:10-2:50. If you are interested, but can't come every week, that's ok, come when you can. Yoga Club

Alexandra Carlson & Heather Doherty – Student Leaders

Ms. Ellen Fitzpatrick – Adviser/Yogi

The Yoga Club is a fun way to relax and de-stress from school, sports and any other nerve-wracking activities. When people join the club, they have the opportunity to go to yoga and different meditation classes together. All of these would be taking place outside of school, and we would be meeting twice a month. We would most likely be taking these classes at Soma Yoga in town, where they have free meditation on Mondays and very inexpensive classes during the rest of the week. Possibly, we can also get discounts for a large group of people, like our club. There is also a possibility to go to Waveny Care Center and lead a yoga class there for the residents, since one of the leaders of this club is a volunteer there and would be able to set it up. The

majority of the classes cost little to nothing, making it appeal to a wide variety of students. There are also no materials that are needed besides a yoga mat, which we have extra of. The purpose of having Yoga Club is for students to have a place to unwind after their day while also having fun with friends. The Yoga Club began last year, and we are excited to continue it this year. We hope to have more activities and some fun yoga classes that will push everyone's comfort zones while still allowing them to feel at ease.

A Strand For You

Bridget Salmi & Julia Salvatore – Student Leaders

The two of us would go to the hospital to deliver the jewelry, and we were hoping that some club members could have this opportunity as well- it would be very special for everyone to build a relationship with the child they're personally impacting. We think that this club will make so many children happy and will make a difference in their lives; that is very important.
