Dear Parents,

The nurses would like to remind you that we are here to assist our students and families through this challenging time.

In order to best support all of our families, it is important for you to please let us know if your child is ill and unable to participate in distance learning. This helps us to track illness within our community and to be sure we are meeting the academic needs of our students.

You may call the usual school Attendance line or email your school nurse directly.

Of course, ALL information related to health is confidential.

Additionally, please know that the local and State Health Departments are asking all of us to assume we have likely all been exposed to Covid-19 and to act accordingly. As a community, we can slow the spread of the disease, but only if we all work together.

- Shelter in our homes.
- Practice social distancing.
- Wash our hands frequently.

If you must go out, be very careful what you touch. Remove your shoes and outerwear when entering your home and wash your hands before touching anything.

Be well,

Janet Reed
District Nursing Supervisor
