

ATHLETICS

The New Canaan High School Interscholastic Athletics Program is an integral part of the school's total educational program. The benefits of participation in interscholastic athletics are extensive. Interscholastic athletics serve as a course in physical development as student-athletes learn health, exercise, strength, stamina, nutrition and fitness. Inherent in educational athletics are self-confidence, perseverance, teamwork, and the building and development of higher aspirations. Research demonstrates that when compared to non-participants, those who participate in educational athletics enjoy higher GPA's and benefit from increased rates of school attendance, graduation and college acceptance. Interscholastic athletics also promote values and teach life skills such as service, respect, integrity, leadership, cooperation, and friendship. Integral to the experience are sacrifice, cooperation, overcoming defeat, and facing adversity. These experiences and lessons relate as much to life and education as they do to the outcome on a scoreboard. Participation in interscholastic athletics has been proven to be a predictor of future success in college, career, and life; for example, studies of American corporations have shown that almost 95% of high-ranking executives participated in athletics while in school. Student athletes learn and grow through their experiences; their teams benefit from their efforts and growth; the school district benefits from teams' positive contributions to school spirit, modeling of appropriate actions, and passionate spirit; ultimately, the community develops great pride in the efforts of its student-athletes. There is a logical, and powerful, positive reinforcement loop.

New Canaan continues to have a strong tradition of successful athletic programs. Participation in youth sports has risen over the past 3 years, and 70% of our high school students participate in at least one sport each year. It is anticipated that over 875 student-athletes will participate in the athletic program next year. To best meet student needs and interests, the New Canaan High School's athletic budget supports a diversified interscholastic program of 59 teams. Students have the option of participating on 31 varsity, 18 junior varsity and 10 freshmen teams. The program is proud of its very strong community support, and annually receives statewide recognition for overall excellence. Our goal for this year's budget is to ensure a consistent level of excellence for all of our student-athletes. The athletic program is appropriately funded through the Board of Education budget, and is enhanced by funding from outside sources, primarily the New Canaan All Sport Boosters Club (approximately \$125,000 annually) and New Canaan Ice Hockey (approximately \$35,000 annually to offset ice costs). In this budget, the Board funds 74 coaching positions, and the generosity of the All Sport Booster club funds an additional 34 positions.

The high interest level in athletics, combined with an increase in high school enrollment, has put a strain on some student-athlete support resources. Presently, we have one full-time athletic trainer who is responsible for the health and safety of all athletes. Visits to the trainer are recorded in S.N.A.P, and during the 2015-16 school year, the athletic trainer treated student-athletes 5,605 times. Traditionally, the Fall season has the highest athlete participation rate, and 2,082 of the total athletic trainer contacts took place last Fall. Additionally, there are evening football and soccer games in the Fall, which put further strain on the athletic trainer. This budget requests \$15,000 to support an additional athletic trainer to be contracted for the fall season (40 hrs. per week). This additional resource will allow NCHS to maintain a safe

environment for all athletes in every sport. This will also free up the ATC's to do more rehab with injured athletes.

Athletics has one additional enrollment driven request. We typically have 40 freshmen on the football team. However, due to a larger incoming 9th grade class and increased interest in the program after four (4) consecutive state championships, we anticipate that an additional 20 or more freshmen will be joining the team in 2017. This increase in participation necessitates the investment in additional protective equipment. Helmets are approximately \$350, and shoulder pads approximately \$150. Therefore, we have allocated \$500.00 per additional participant in the program, which amounts to an increase of \$10,000 to the 2017 equipment budget.
